  - g. Technical issues
11. Stockholm trip
  - a. Deciding on the date

### **Things that were discussed:**

#### **Review of LSA elections**

Recently the elections to Latvian Student Association took place and our neighbors RGSL had their candidate for one position. Even though there was no one delegated from SSE Riga, we have received a

diploma for corporation and, more importantly, we captured the attention to our school. Thus, due to a valuable experience that our students have gained over time, our suggestions to LSA how to work more innovatively and effectively will be more appreciated.

**Corporation with EMBA students**

- a. How the info is distributed
- b. Then they know and if they want they can contribute to it (e.g. marketing project)
- c. They want to corporate with good students

Create a report of subjects (Irina and Daina)
